Café Sydney has built itself a solid reputation as a function venue in both the corporate and private sectors. A key part of this success is due to the flexibility in our function packages allowing each client the ability to tailor a package that meets their interest and requirements.

Our set menu is derived from the restaurant menu, which changes every two months approximately.

Beverages are charged on a consumption basis. Pre- selection is required prior to your event. We would liaise with you during your event to ensure you achieve the minimum spend and your set beverage budget.
